Learn *with* Purpose

1 About IILM UNIVERSITY

VISION

IILM University envisions a future for its students where they are able to strive for excellence and can be in a position to achieve it as well.

To create and well as foster innovative ideas as well as contribute to novel research.

To create strong entrepreneurs with effective skills and an all-rounding ability to achieve emotional balance and financial stability.

WHY IILM?

We believe in the quality of education that is imparted through an interdisciplinary approach. Spread across a wide array of subjects ranging from the fields of management, and humanities, to the creative arts, the students can choose their majors-minors respectively, suiting their career goals and educational needs. The primary focus is for the students to learn the optimum utilization of the subjects that they are engaged with.

The faculty-student interface is not just restricted to subject classes and the confidence and strength of the students are enhanced by assigning them a faculty mentor. The students can always reach out to their mentor for guidance. Further, learning too is not limited only to classrooms and textbooks but enhanced learning is sought through co-curricular activities. The students are provided with leading-edge modern technologies enabling them towards comprehensive classroom learning as well as a comfortable residential experience. The aptitude for critical thinking, communication skills, analytical and creative thinking, research, and digital competence is built and honed within students throughout their affiliation with the university.

Build an ecosystem around students that focuses on building values such as a love for knowledge, an enhanced ability to apply knowledge, create, visualize, lead in the various fields of knowledge and carve a niche for themselves in whichever field they choose to embark upon.

Words of Encouragement

Dr. Sujata Shahi
Vice Chancellor, Gurugram

“Education is the most powerful weapon which you can use to change the world”
Nelson Mandela

With almost 3 decades of experience, it is with great pride and honor; I wholeheartedly dedicate my service to an institution which beholds the value of integrity, flexibility, creativity and innovation in the field of education. With the notion of training students in an outstanding practice-based and work-based experiential learning, IILM University which is the best private university in Delhi NCR has set the infinite boundaries in the field of education by focusing on the application of knowledge and skills making it globally relevant for the students, thus preparing them for future ventures.

IILM University, Gurugram believes in fostering the alterations pertaining to social, technological, and behavioral developments, thus enabling the students to have a global exposure, through our globally benchmarked programs (which are among top ranking programs) to further understand the disruptive changes, infer the challenges and brainstorm potential solutions. Embracing the culture of India and withstanding the values, the aim is to create and facilitate holistic and interdisciplinary learning to promote respect, teamwork and commitment.

The ongoing personal mentoring sessions (Guru-Shishya Parampara) with the students helps them to engage and vouch for commitment to oneself and channelize their energy into generating positivity. Through the Centre of Emotional Intelligence, the talented team is rigorously practicing and supporting inspirational learning through research and innovation, motivating students to think “out of the box” and to maximize their deductive reasoning capacities, furthermore encouraging them to be leaders of tomorrow. The university by no means keeps any stone unturned to help students irrespective of class, colour, creed, gender, religion, economic status or withholds their right to education and therefore scholarships (merit and means based) are available to help the young inquisitive minds to pursue their dreams. IILM fee structure is flexible incorporating many merit scholarships.

Where sky is the limit, the university believes in creating the opportunities for students to fetch the dreams at ease!

Dr. Taruna Gautam
Vice Chancellor, Greater Noida

“Education is not the learning of facts but training of the mind to think”
Albert Einstein

I take pride to introduce our University, set up under the Uttar Pradesh Private University (Amendment) Act 2022 with a vision to be Global Inclusive and Responsible. With more than 28+ years of experience in successfully training managers and new business creators, it is emerging as a distinguished University in the Delhi NCR area.

The world is undergoing rapid changes in the knowledge landscape. With various dramatic scientific and technological advances, such as the rise of big data, machine learning, and artificial intelligence, many unskilled jobs worldwide may be taken over by machines, while the need for a skilled workforce, particularly involving mathematics, computer science, and data science, in conjunction with multidisciplinary abilities across the sciences, social sciences, and humanities, will be increasingly in greater demand.

IILM University follows the concept of multidisciplinary education and instilling a sense of purpose in life. The University provides student a robust academic framework and strong skill base to become educated, sensitive and a successful citizen of the 21st century. Highly qualified and experienced faculty, state-of-the-art infrastructure and a serene, beautiful green campus are the hallmarks of IILM University. Our academic credentials, accreditations and recognitions put us among the leading institutions in the country. Once you are here , I am sure you will enjoy the best of teaching and learning, research and community experiences in your student life.

Along with my faculty colleagues, staff and students, I welcome you wholeheartedly to IILM University.

Our esteemed panel work together to take the university forward, supporting faculty and staff members. Spearheading a host of new academic projects and initiatives across campuses thus building and sustaining a collaborative, inclusive environment.

Faculty & Research

IILM focuses on building strong leadership through excellence in teaching and research. It has highly acclaimed, competent, and well-qualified faculty members from the world of academia and the industry.

Teaching methods include case studies, simulation, role plays, seminars, and presentations. Faculty members adopting blended learning pedagogy where theory and real-world practices are weaved into the curriculum for an exceptional learning experience. Apart from classroom teaching, our faculty members actively engage in research, consultancy, and corporate training programs in their respective areas of expertise.

Support & Mentorship at IILM

Mentoring is one of the proven ways that can help young students strive for excellence in the professional world. The mentors at IILM ensure that every student gets ample opportunities to excel both personally and professionally. The purpose of the mentoring program is to prepare students for successful careers by integrating academic learning with real-world experiences.

2 Academics

Students at IILM have an opportunity to explore Academics that is guided by an interdisciplinary approach. They are encouraged to choose a combination of courses that will take them closer to their ambition. This approach helps the students in the undergraduate program to explore other subjects to choose their area of specialization or it can help them to enhance their understanding of their area of interest. This gives them an edge over students who are limited by a singular field of knowledge and students at IILM university are benefitted from this wide horizon of fields of knowledge. At the Post Graduate level, the Interdisciplinary approach helps the students to achieve a strong foothold in their chosen area of specialization, at the same time, gain a holistic perspective of their area of interest. IILM University proudly presents its liberal arts undergraduate course structure that enables students to explore the various fields of knowledge and carve out a subject combination that is best suited for their intellectual inquiry as well as their goals.

Undergraduate and Postgraduate courses are devised by our experienced faculty backed by a strong industry experience and revised in a manner that the students are able to relate and understand contemporary practical issues with the given theoretical knowledge. The students of both undergraduate, as well as post-graduate courses, are persuaded to participate in collaborative and interactive industry workshops as well as seminars that help them to question their otherwise conventional boundaries of knowledge and skills.

IILM University also offers Doctoral programs. These doctoral programs foster an equilibrium between effective research skills, and technical skills equipped with precision as well as creatively putting it across in their thesis and journal articles in many prestigious publications.

Schools of IILM

Our different schools guarantee a wide array of courses to choose from, interdisciplinary major-minor combinations and an unforgettable real-world learning experience.

Management

IILM Law School

Liberal Arts

Computer Science & Engineering

IILM School of Management

The world, each and every minute is going through a dynamic evolutionary process - be it in the human mind, in the environment (natural, socio-economical & political) we live in, or in the technologies that we use. These factors are causing the panorama of the field of business, management, and entrepreneurship to widen its horizons. The focus of the management school is to capture the dynamism- both on a micro as well as a macro level and channel it to enable students to create better opportunities for themselves and the companies that they choose to engage with.

- ◆ PGDM in Entrepreneurship & Family Business

IILM Law School

The IILM school of law equips students by honing their analytical abilities to understand the trajectory of the arguments placed in front of them. They are trained to understand the Indian legal system completely as well as think about laws and acts that are implemented in India through a global outlook and perspective. The focus is also to train the students in such a manner that the ability to interpret and formulate arguments in a courtroom setup is ingrained in the very thinking of the student. This is done through “moot courts” and “mock parliaments”.

Programs offered

Undergraduate Studies

- ♦ **B.A. LLB (Hons.) – 5-year integrated program**
- BBA LLB (Hons.) – 5-year integrated program**

3

Educational OBJECTIVES

- To provide students with an opportunity to delve into experiential learning through empirical simulation exercises
- By encouraging the students to analyze empirical and theoretical evidence
- Faculties encourage students to gain knowledge through understanding and reflective levels of learning
- Learner-centered methods are used such as Case study analysis and reviewing
- Students are encouraged to know and learn about the basics of researching to the most integral fundamentals of good research
- Interactive methods of teaching are used such as – field visits, debates and discussions, movie/documentary screenings, and practical projects
- Finally, the pedagogy is devised in a manner to inculcate a love for the subject rather than a fear of exams, projects, and deadlines

Global Connect

IILM university follows a perspective that helps the students to access various global outreach programs. Various International speakers, experts, and professors are invited to enlighten the students of IILM university and expose them to ideas that are of global relevance. IILM also offers collaborative Summer School programs and International transfer opportunities across universities in USA, UK and Europe.

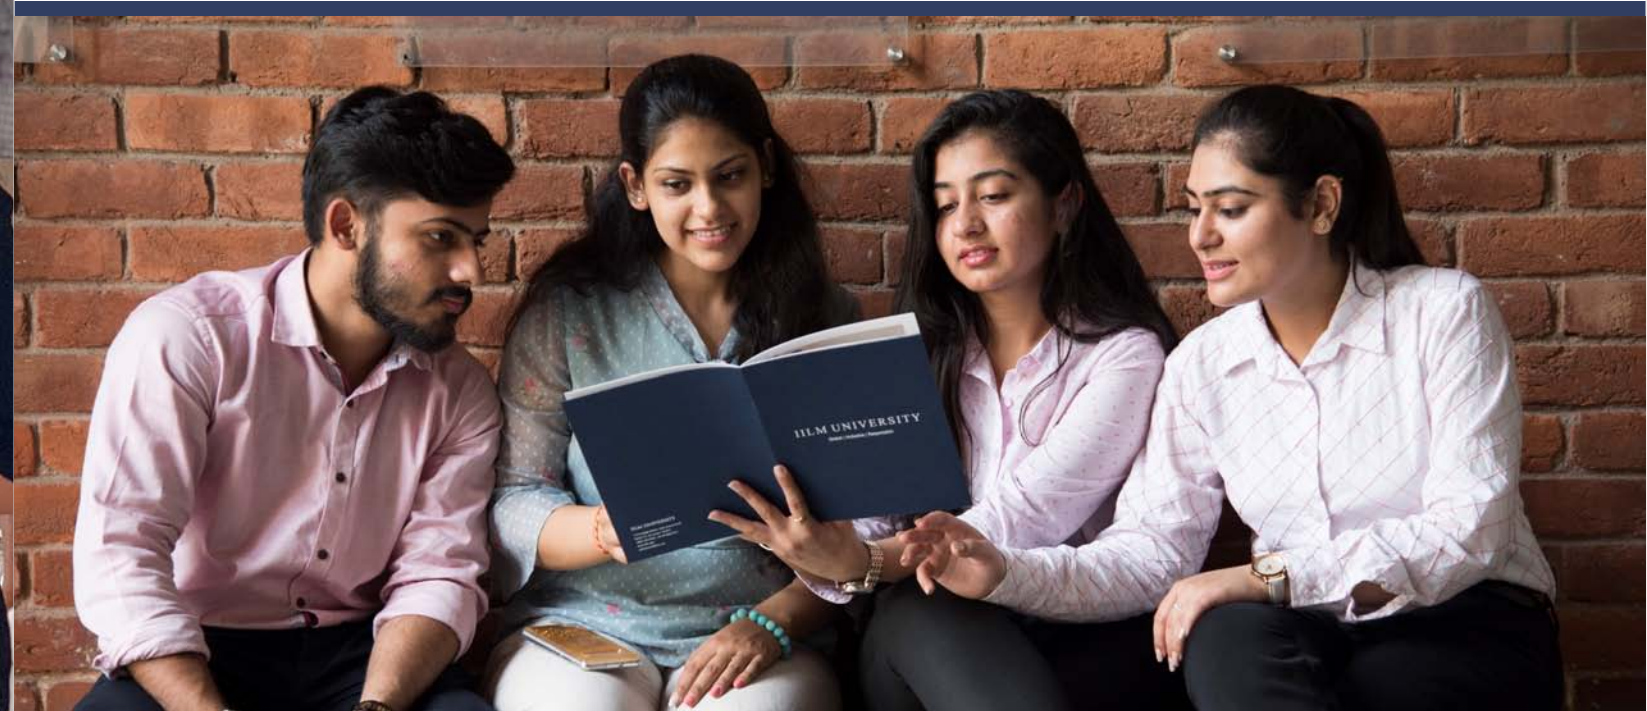

Career Paths and Opportunities

The students of IILM are trained to achieve the best intellectually and they are motivated to impart intellectual excellence to the organization they are employed by or associated with. The training begins with the students striving to put their best foot forward to achieve the best internship opportunities to understand the application of the discourse through that internship. It engages students in Summer Internships not only in India, but some deserving students are provided with the opportunity to intern across oceans. The Entrepreneurial skills are developed through the Incubation Centre for Entrepreneurship development.

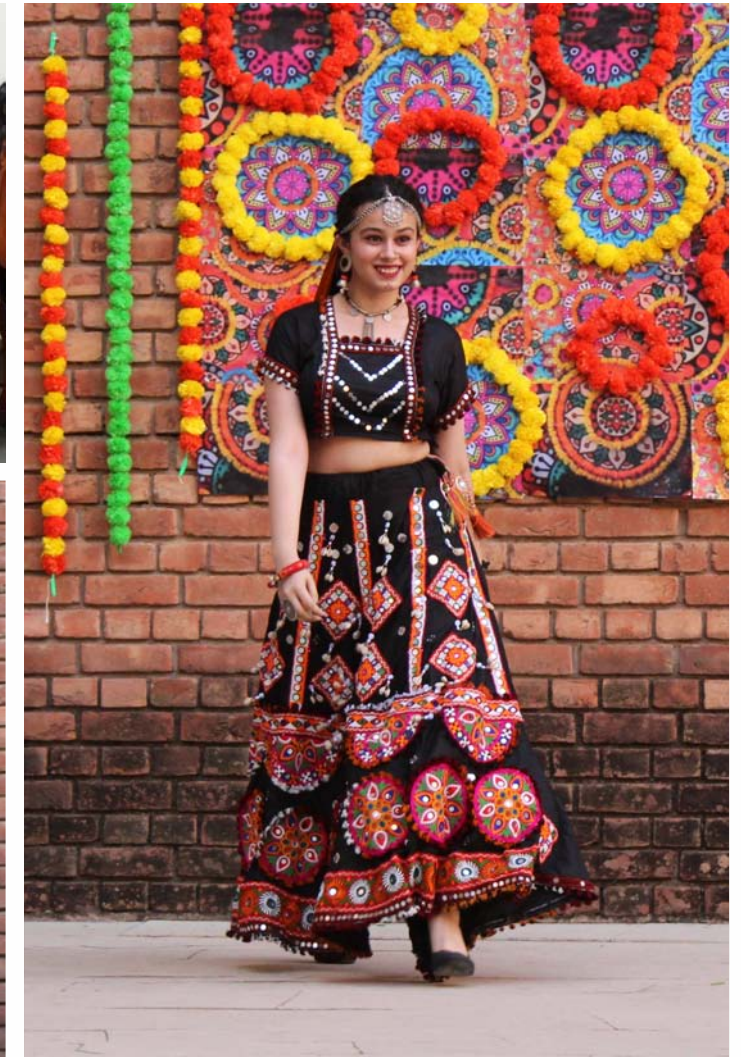

After Passing Out From IILM, the students can carve their niche in the following fields:-

- Post Graduate Studies & Academia
- Doctorate Studies & Research
- Think Tanks - both National & International
- Entrepreneurship
- Multinational Companies
- Legal Firms
- Courts and Bar Associations
- Advertising Agency
- Digital Media and Production Houses
- Fashion Houses
